A Report on Seed Ball Program

12th June 2018 : Seed Ball Program

About the Importance of Seed Ball Program:

- Increasing Green Space and Improving Food Security through Seed Balls
- Seed balls are marble-sized balls of clay, earth, humus or compost, and seeds.
- Seed bombing is a farming technique of introducing vegetation to land by throwing or dropping the seed balls.
- Seed balls help increase green space in my country (Ethiopia), but seed balls can work well anywhere with a rainy season. Seed balls have an 80 percent growth success rate in comparison to regular seedlings, which helps people farming in rural areas have a more consistent supply of food.

How to make seed balls

1. Mix equal proportions of red clay soil, black soil and compost.
2. Mix in 1 to 2 parts water slowly until you get thick, dough-like consistency.
3. Break a small piece off and put the seed you have chosen at the center (maximum of 3 seeds). Once you have placed your seed, roll the portion of dough between your hands into a marble-sized seed ball. Repeat with the rest of the soil.
4. Let them dry for 24-48 hours until they are fully dry before putting them in your garden or tossing them.

The dried clay acts as a protective barrier that will prevent damage to the seeds from common seed predators (ants, mice and birds.) Once sufficient rain permeates the clay, the seeds inside begin to germinate, helped along by the nutrition and minerals (humus) contained within the balls.

What Are Seed Balls?

- The method of capping the seeds with compost and soil and bringing it into a ball-like shape is called seed balls.
- It would be a great mixture that includes everything a seed needs to grow in a natural environment.
- Planting seed bombs are a standard method of restoring damaged lands and facilitating restoration.
- Scattering the seed balls is a cost-effective and low maintenance way to plant native plants. And it is important to note that the land is protected from reaping. That's all the rest of the work will be done by the sun and the rain.

Why are seed bombs important?

- Seed balls are important because it is the easiest way to plant native plants, flowers and grasses.
- The planting method requires time and patient. In seed balls, regardless of age, anyone can plant anything without much effort.
- Additionally, the clay and humus ball prevents the seeds from drying out in the sun, getting eaten by predators like rats and birds, or from blowing away.
- We don't need to worry about areas where there is no way for watering. When enough rain has seeped into the clay, the seeds will sprout with the help of its mixture.

A Report on Seed Ball Program

The College NSS Unit on 12-06-2018 at 11:30 A.M in the College Campus. N.S.S volunteers prepared seed balls of various seeds under the guidance of faculty of Botany Department and N.S.S Coordinator. Dr.Anilkumar Koppalkar Principal of the college, staff members and NSS volunteers and participants seeded around 250 to 300 seed balls and watered them.

Principal Dr.Anilkumar R Koppalkar and Staff members of Botany explained the importance of preparation of seed ball and seeding, further he told it is a small effort made by NSS Unit and staff of the college towards social forestation. On the mark of environment day we arranged this program and June month is suitable for such activity and hence it is executed successfully. At the end students were given refreshment and concluded.

" Importance of A Program on Legal Awareness for Devadasi's of Shahabad Taluka"

Member secretary of the District Legal Services Authority said that it was unfortunate that the Devadasi system of dedicating young girls to the gods and exploiting them continued even today. The reason for the continuation of the Devadasi system was the high illiteracy among women, particularly among the lower strata of society in rural areas.

It is important for giving more stress on literacy activities in rural areas, that officials should give more attention to creating legal awareness among the vulnerable sections of the society and enable them to assert their rights and resist attempts to dedicate them to the Devadasi system.

The authorities should give maximum publicity and take up awareness campaign of the provisions of the Karnataka Devadasi (Prohibition and Dedication) Act and this would act as a deterrent to the people to force young girls into the system.

He said that the system was predominantly found in north Karnataka districts and few parts of neighboring Andhra Pradesh and Maharashtra. It is also advised to rehabilitated Devadasis to use the Right to Education Act educate their children in good schools.

It is also needed that the rehabilitated Devadasis should use the various welfare schemes introduced by the State government, including the Rs 1.2 lakh provided for constructing houses.

The Karnataka State Women Development Corporation also extended a soft loan of Rs. 20,000 with 50 per cent subsidy to Devadasis to start their own businesses.

Micro-loans up to Rs. 45,000 to self-help groups operated by Devadasis was also provided at low rates of interest.

“Importance of “Physical Fitness and Youth Day”

The National Youth Day is being celebrated on January 12 to commemorate the birth anniversary of Swami Vivekananda.

The National Youth Day is being celebrated on January 12 to commemorate the birth anniversary of Swami Vivekananda. In 1984, the Indian government declared Swamiji's birth anniversary as National Youth Day and since 1985, it has been celebrated to honor and recognize Vivekananda's teachings. This year, the National Youth Day 2023 theme is "Viksit Yuva-Viksit Bharat."

In India, National Youth Day is celebrated to promote awareness of people's rights and to provide information about them. Keeping the ideals of Swami Vivekananda alive and motivating young people is the main objective of the celebration. A number of programs are conducted across the nation on National Youth Day (Rashtriya Yuva Diwas), including speeches, music, youth conventions, seminars, yoga asanas, presentations, essay writing, recitation competitions, and sports competitions.

Vivekananda propounded the significance of education in nation building. He believed that education is the primary means of empowering people. He particularly emphasized education being relevant to the common masses. One of the famous proverbs of Swami Vivekananda among the youth is, “Arise! Awake! and stop not until the goal is reached.”
