S.S.Margol College of Arts, Science & Commerce, Shahabad

National Level Workshop on website designing using PHP, Organized jointly by **S.S.Margol College of Arts, Science & Commerce**, Shahabad, **Innovation Cell IIT Bombay** & **RoboKart Bombay**, venue at S.S.Margol College of Arts, Science & Commerce, Jewargi Road, Shahabad-585228, Dist: Gulbarga, State: Karnataka **on 28th & 29th Aug 2017.**

Resource person : Sri.Shivkumar Varma (Research & Development Engineer), RoboKart, Bombay.
Coordinator -1 : Prof.S.M.Kotnoor (Asst.Prof in Commerce), S.S.Margol College, Shahabad
Coordinator -2 : Prof.Vishal Rathod (Lecturer in Computer Science), S.S.Margol College, Shahabad

Students registered and attended the workshop from different colleges.

Sl. No.	College Name	City	Class	No. of Students
1	S.S.Margol College	Shahabad	B.Com I Sem	07
2	S.S.Margol College	Shahabad	B.Com III Sem	12
3	S.S.Margol College	Shahabad	B.Com V Sem	22
4	S.S.Margol College	Shahabad	B.Sc I Sem	16
5	S.S.Margol College	Shahabad	P.U.C II Year	01
6	Appa Institute of Engineering and Technology	Kalaburagi	B.E V Sem	11
7	GRG Women's Degree College	Shahabad	B.Com I Sem	14
8	KM Polytechnic College	Yadagiri	Diploma	02
9	Shubham Degree College	Yadagiri	B.Com I Sem	01
			Toatl	**86**

Inaugural Function on 28-08-2017 at 10.00 A.M

1) Chief Guest & Inaugurator   : Prof.Sanjay Maka
Dept. of Electronics & Communication
PDA Engineering College, Kalaburagi

2) Resource Person   : Sri.Shivkumar Varma,
Research & Development Engineer
RoboKart, Bombay

3) President of Function   : Dr.Anilkumar.R.Koppalkar
Principal, S.S.Margol College, Shahabad

4) Coordinator -1   : Prof.S.M.Kotnoor
Asst. Professor in Commerce
S.S.Margol College, Shahabad

5) Coordinator -2   : Prof.Vishal Rathod
Lecturer in Computer Science
S.S.Margol College, Shahabad

Day One Sessions on 28-08-2017 from 10.30 a.m to 4.30 p.m

SESSION 1:	SESSION 2:

➢ Php Basics
     • Overview
     • Installation
 ➢ Php Syntax
 ➢ Php Variables
 ➢ Php Datatypes
     • String
     • Integer
     • Float
     • Boolean
     • Array
	➢ Php Constants
	 ➢ Php Operators
	     • Arithmetic
	     • Assignment
	     • Comparison
	     • Increment / Decrement
	     • Logical
	     • String
	     • Array

Day Two Sessions on 29-08-2017 from 10.00 a.m to 4.00 p.m

SESSION 3:	SESSION 4:

➢ Php Forms
     • Php Form Handling
     • Php Form Validation
     • Php Required
 ➢ Php Loops
     • If..else..else if
     • Switch
     • While
     • For
	➢ Php Database connectivity
	 ➢ Php AJAX

Valedictory Program on 29-08-2017 at 4.00 p.m

1)	Chief Guest	: Dr.G.R.Badiger, Retired Principal S.S.Margol College, Shahabad
2)	Resource Person	: Sri.Shivkumar Varma, Research & Development Engineer RoboKart, Bombay
3)	President of Function	: Dr.Anilkumar.R.Koppalkar Principal, S.S.Margol College, Shahabad
4)	Coordinator -1	: Prof.S.M.Kotnoor Asst. Professor in Commerce S.S.Margol College, Shahabad
5)	Coordinator -2	: Prof.Vishal Rathod Lecturer in Computer Science S.S.Margol College, Shahabad

DESIGNING USING

php

NATIONAL LEVEL WORKSHOP
ORGANIZED BY

S S Margol College of Arts, Science & Commerce
Website Designing using PHP

TECHNICAL DETAILS

➢Php Basics
•Overview & Installation
➢Php Syntax, Variables, Datatypes
•String, Integer, Float, Boolean, Array
•Arithmetic, Assignment, Comparison
•Increment/Decrement, Logical, String, Array

HIGHLIGHTS

- Expert Training
- Hands on Training
- Certificate from Robokart.com
& Innnovation cell, IIT Bombay
- Enhance Technical Skills

B.Sc.Physics / B Com /
Electronics
C.S / IT / MCA / BCA
students can participate

DATES:

28th & 29th August, 2017

FEES:

RS. 400/- PER STUDENT

Venu:-
S S Margol College of Arts, Science & Commerce
Jewargi Road, Shahabad- 585228
Gulbarga, Karnataka.

Better Practice Bring Laptop!!!

ISO Certified Certificates 9001:2015

Digital certification from Robokart.com
& Innoavation Cell IIT Bombay

REGISTRATION:

Staff Co-ordinator:
Shri. Vishal Rathod- 9901098306
Shri. S. M. Kantoor- 9448358899

Any Queries :
Mr. Prashant : 08425858175

Website Designing on php

ARK Technosolutions an award winning company as "Business Leader in Robotics and Android Training in India" works on designing and developing experiential learning tools. The vision of the company is to develop and promote the spirit of science and technology to students, enabling them to have hands on feel of technology and its applications. Our core belief lies in propagating the concept of 'learning by doing' Knowledge by action. Some of our current clients include **IIT Kharagpur, IIT Roorkee, IIT Kanpur, BITS Goa, IIT – Hyderabad, BIT – Bhubaneswar, NIT – Warangal, MNITM – Allahabad, YCC – Nagpur, AVBIT – Wardha, KGCE – Mumbai, PESMCE – Pune, GGCT – Jabalpur, SSGMCE – Shegaon and many more.**

One of the most surprising things when you look at small businesses is how many of them don't have a website. You would think that in this day and age everybody would know how important a website is for all businesses. Clearly that is

not the case. Any business that does not have a website is missing out on one of the most powerful marketing tools available to them.

The main reason that it is important for businesses to have a website is how people are likely to find you. These days most people will go online and research products and companies before they make a purchase, if you don't have a website you are missing out on all of this potential business. Even if people don't buy your product online they are still likely to research it online so you have to have a website so these people can learn about your business.

A website is also important because it helps you establish credibility as a business. Most people just assume that you have a website since the vast majority of businesses do, at least the vast majority of big companies do. There are actually still quite a few small businesses that don't have a website and without one this is exactly what they will remain. If you don't have a website that you can refer people to potential customers are going to assume that you are a small time company that does not take their business seriously. Once you establish this reputation it is going to be hard to make sales.

Php

PHP is a server-side scripting language designed for web development but also used as a general-purpose programming language. Originally created by Rasmus Lerdorf in 1994, the PHP reference implementation is now produced by The PHP Group.PHP originally stood for *Personal Home Page*, but it now stands for the recursive backronym *PHP: Hypertext Preprocessor*.

PHP code may be embedded into HTML code, or it can be used in combination with various web template systems, web content management systems and web frameworks. PHP code is usually processed by a PHP interpreter implemented as a module in the web server or as a Common Gateway Interface (CGI) executable. The web server combines the results of the interpreted and executed PHP code, which may be any type of data, including images, with the generated web page.

The Importance of Php in web development

It has a solid core and a very secure architecture. Therefore, applications developed using it as the framework is very secure, stable and safe in themselves. They are also very robust and seldom crash or malfunction.

It is open source and free and therefore saves a considerable amount of money for an organization by bringing down the overall development cost substantially. But despite its low cost, the quality of the development is not compromised with at all.

It is platform independent, and therefore the application can run across all major web browsers and operating systems.

Prerequisites

Before proceeding with this tutorial, you should have basic knowledge of Computers, Internet, Database and Networking concepts. Such basic knowledge will help you in understanding the Website Design concepts and move fast on the learning track.

Session Plan & Content:

DAY 1:

SESSION 1:	SESSION 2:

➢ Php Basics
   • Overview
   • Installation
➢ Php Syntax
➢ Php Variables
➢ Php Datatypes
   • String
   • Integer
   • Float
   • Boolean
   • Array
	➢ Php Constants
	➢ Php Operators
	   • Arithmetic
	   • Assignment
	   • Comparison
	   • Increment/Decrement
	   • Logical
	   • String
	   • Array

DAY 2:

SESSION 3:	SESSION 4:

➤ Php Forms
   • Php Form Handling
   • Php Form Validation
   • Php Required
➤ Php Loops
   • If..else..else if
   • Switch
   • While
   • For
	➤ PhpDatabase connectivity
	➤ Php AJAX

Workshop Benefits & Highlights:

✓ *Learn & Interact with Android Developers & get to know basics of php.*

✓ *Receive an unparalleled education on the art of building apps & games with personal one – on – one attention.*

✓ *Learn to make Basic website within 2 day's*

✓ *PowerPoint Presentation, Live Demos, Interactive Questions & Answer session & comprehensive material.*

Target Audience:

✓ *Students seeking career in webdite designing related Industry.*

✓ *All year students from CS,IT,IS,MCA, BscIT Engineering Stream & Android Enthusiast*

Certification:

*Students will be certified jointly from **ARK Technosolutions & Robokart.com***

The fee include

- ✓ *Php Software kit*

- ✓ *Post Workshop Material with loads of App's.*

- ✓ *Android outline study material.*
