**Title** : Compare my Pay Calculator ([www.comparemypay.com](http://www.comparemypay.com))  
**Tools** : Manual Testing  
**Environment:** MVC 3, SQL Server 2008 R2

**Description:**

The **Compare My Pay** Calculator is built upon a Standard of Living Based Concept. It allows you to **compare** your entire standard of living, rather than only **comparing salary numbers**. When deciding on a **new job** in a **new location**, you should learn as much as you can, not only about the salaries of that area, but also about the **expenses**. You need to determine if your new location will lower certain things that you are now used to having as a standard of living.

The compare my pay **calculator** will allow you to enter your own **personal expenses**, rather than use an unknown **industry index** (indexes are available for use as reference). This will allow you to truly make your own **breakeven salary** based on your own individual standard of living. Now, you will be able to back up your salary expectations with facts and figures and bring the **HR department** back to the negotiation table.
